PORTFOLIO

PROFESSIONAL SUMMARY

3 production apps. 60 days. All AI-assisted — that's how I ship. Full Stack Developer with 2+ years of experience and an MS in Computer Science (4.0 GPA, UNT). I pair AI tools like Claude, Cursor, and Gemini with strong MERN stack fundamentals to build and deploy fast. From enterprise digital signage systems to live PWAs on Vercel, I bring full-stack depth, a bias for shipping, and genuine excitement for every new challenge.

TECHNICAL SKILLS

Languages	JavaScript, Python, Java, SQL, NoSQL
Frameworks	React.js, Node.js, Django, Express.js, Bootstrap, Tailwind CSS
Databases & Cloud	MongoDB, PostgreSQL, MySQL, Supabase, Azure, Vercel, Cloudflare
AI & Dev Tools	Claude, Claude Code, ChatGPT, Gemini API, Cursor, Lovable, Prompt Engineering
DevOps & Tools	Git, GitHub, Docker, VS Code, Figma, Postman, Raspberry Pi
Practices	REST APIs, Agile/Scrum, OOP, RBAC, CI/CD, Responsive Design

KEY PROJECTS

Universal Digital Signage — Multi-Module Enterprise Solution In production since 2024 MERN, Raspberry Pi, Docker, IoT

[✉ github.com/divisionbyinfinity/universal_digital_signage](https://github.com/divisionbyinfinity/universal_digital_signage)

- Architected a modular digital signage platform — content management, playlist scheduling, screen deployment, and device monitoring
- Reduced playlist management time by 70% — **still actively running across the College of Visual Arts & Design building at UNT**
- Deployed Raspberry Pi hardware nodes for screen management with robust Node.js backend and RESTful API layer
- Statuscheck Module** ([✉ github.com/divisionbyinfinity/statuscheck](https://github.com/divisionbyinfinity/statuscheck)): Real-time device health checks (ping, SSH, HTTP) with email alerts, Docker deployment, and JSON-based config for flexible network setups

Walmart Sales Prediction PySpark, ML, Big Data

[✉ github.com/hpv333/WalmartTimeSeries_Sales_Prediction](https://github.com/hpv333/WalmartTimeSeries_Sales_Prediction)

- Time series forecasting with PySpark and RandomForestRegressor across 45 Walmart stores
- Feature engineering on holiday flags, temperature, fuel prices, CPI, and unemployment data

VRK Diet Companion React, PWA, Vercel

[✉ vrk-diet-companion.vercel.app](https://vrk-diet-companion.vercel.app)

- Live personalised diet tracking PWA **actively used by real users** — meals, weight, and hydration
- PWA currently being converted into a fully native mobile application

Business Analytics Hackathon — 3rd Prize Python, ML, Data Analytics

[✉ github.com/hpv333/ITDS_Hackthon_Data_Analysis](https://github.com/hpv333/ITDS_Hackthon_Data_Analysis)

- Analytics solution for Peterbilt Motors to identify warranty cost root causes using Kruskal-Wallis H-Test + Random Forest
- Secured 3rd Prize at UNT ITDS Hackathon; presented findings to industry experts as part of a four-member team

PROFESSIONAL EXPERIENCE

Freelance Full Stack Developer

Dec 2025 — Present

Independent · India

- Delivering responsive web apps and portfolio sites for clients using React.js, Tailwind CSS, and Vercel
- Employing AI-assisted vibe coding (Claude Code, Cursor, Lovable) for rapid prototyping and production-ready builds
- Deployed **3 live PWAs with real active users** — diet companion, hydration tracker, and AI Security Auditor (Gemini API + Supabase)

Graduate Assistant IT — Web Developer

Sep 2023 — May 2025

CVAD, University of North Texas · Denton, TX, USA

- Built a Digital Signage System (MERN stack) reducing manual playlist management by 70% — **in production since 2024**
- Designed a Unified Scheduler platform for equipment reservations with RBAC and MongoDB Atlas
- Deployed Raspberry Pi hardware infrastructure for screen management; API testing via Postman

Software Development Intern

Mar 2023 — May 2023

Style Pro Pvt Ltd · India

- Contributed to production web apps using JavaScript frameworks and REST API integrations

Full Stack Intern

Jan 2022 — Jun 2022

Sindala Trading Pvt Ltd · India

- Developed web applications with React.js frontends and Django backends; built RESTful APIs for internal tools

EDUCATION

University of North Texas · Denton, TX, USA — MS Computer Science

Aug 2023 — May 2025 **GPA: 4.0**

St. Martin's Engineering College · Hyderabad — BTech Information Technology

Aug 2019 — Jul 2023 **87.8%**

Army Public School (APS) — Intermediate, MPC & CS

Apr 2017 — Mar 2019 **88.4%**

Delhi Public School — Class 1–10

2007 — 2017 **10 CGPA**

CERTIFICATIONS

- Docker Foundations Professional — Docker, Inc (2025)
- Introduction to Front-End Development — Meta (2025)
- Goldman Sachs Operations Simulation — Forage (2025)
- Demystifying AI — University of North Texas (2025)

ADDITIONAL

Languages: English (Proficient), Hindi, Telugu | **Interests:** AI-assisted development, open-source contributions, wellness tech
